

February 16, 2000 –July 7, 2007

T*his book was donated in honor and memory of Megan Elizabeth Evans who died tragically at the age of 7 due to carbon monoxide poisoning around a regular ski boat. Megan loved life and she always said her favorite toy was “books”. She was still learning to read and was very proud of her accomplishment. Those who knew and loved her know she’d like nothing more than to share her favorite toy with other children. Please enjoy this book!*

Please visit...

***www.meganscause.org** for education and prevention about carbon monoxide death behind boats.*
